Faculty Advisor: Dr. Roxas Renato, Dr. Jocelyn Ang, and Dr. Chokechai Rongkavilit

This program is able to accommodate 10 students

Description: Students spend 2-4 weeks rotating through different specialties in surgery and medicine, shadowing a mentor in clinic and on inpatient rounds and observing surgeries in the OR. This clinical experience is meant to enhance the development of clinical skills and professionalism while providing cultural exchange and a taste of the field of medicine in China. Areas of specialties that students can choose to rotate include general surgery, internal medicine, pediatrics, OBGYN, neurology, neurosurgery, orthopedic surgery, ER, radiation oncology, GI and Chinese medicine.

Commitment: Summer 8 am to 5 pm

Activities for Medical Students:

Observing Agency/Organization staff interacts with clients/patients.

Other: Shadowing physicians in different areas of specialties
