

Category : Clinical initiatives

Name of Organization: Open Source Medicine

Faculty Advisor: Jay Berman, M.D.

Website: www.osmso.org

Name of Person verifying Co-Curricular hours: Erwin Patalinghug

Email: epatalin@med.wayne.edu

This program is able to accommodate 10 students (2 per event)

Activities: “My Health Report” is student-developed computer software used to generate custom health education reports for patients who provide basic information such as blood pressure, blood sugar, smoking status, weight, and height. Students will be in charge of putting patient vitals into the computer program and managing the computer software to print out these reports. Explanation of the values and the report content will be another duty as well. Mainly, this will take place at clinics and health fair screenings.

Clinic or Volunteer Commitment: Sat Sun

Hours: Prior to Noon Noon to 5pm

Activities for Medical Students:

Observing Agency/Organization staff interacts with clients/patients.

Opportunity to communicate health education information to clients/patients.
