**This program is able to accommodate** 20-50 at a time

**Description:**

Medical students will accompany cancer patients during their outpatient visit at Karmanos Cancer Institute, from registration, to consultation, to getting labs, to infusion center. Students will fill out forms recording patient time flow, conduct a short survey, and build rapport with patients and their families. Visits may occupy an either an entire morning or afternoon, and students will be required to stay with the patient the entire time. Students will be awarded 4 co-curricular clinical hours upon completing each visit.

**Commitment: Monday through Thursday**

**Between 8 am and 5pm**

**Activities for Medical Students:**

Observing Agency/Organization staff interacts with clients/patients.
