

Wayne State University School of Medicine
Student Stay-Over Program

Dear Prospective Student,

Congratulations on receiving an interview at Wayne State University School of Medicine! As you come to visit our school we want you to feel welcome and comfortable. We also want to provide you with the opportunity to get information from current students first-hand. Therefore, we are offering you a chance to stay with current medical students as part of the Student Stay-Over Program.

As students, we understand what you are going through in the application process and the financial strain that interviewing can add. We also understand the stress that comes from traveling.

The Student Stay-Over Program provides you with a safe place to stay while in Detroit, and gives you the chance to talk to current medical students about the school, the community and the student life you can expect.

A few caveats and guidelines about the program:

1. This is a student run program, and is **not** a function of the university.
2. Participation in the program will **not** influence your admissions status in any way. Please stay wherever you feel most comfortable.
3. We will try to provide a comfortable and safe environment for you. However, please understand that living arrangements and student hospitality vary.
4. Transportation of all forms is **your** responsibility. This includes transportation to and from the airport and university.
5. You will be responsible for your own meals.
6. You will be responsible for toiletries (i.e. towel, washcloth, etc) and all other necessities for your interview.
7. Please stay with a person of your own gender.
8. The exam dates for first and second year students are listed below. Please try to be as conscientious as possible of these dates when trying to find a student host. If your interview date is close to a second-year exam, try to stay with a first-year student, and vice versa. If there are both first- and second-year exams immediately following your interview date, try contacting a third- or fourth- year student. Yet at the same time, do not feel that you should not participate in the program if your interview falls close to an exam. We will do our best to find you accommodations!
9. Have a great time and ask questions! Now is the chance to glean information about classes, student life, the greater Detroit area, etc.
10. PLEASE DO NOT CONTACT THE ADMISSIONS OFFICE regarding the Student Stay-Over Program.

If you have any questions, comments, or would like to give feedback (positive or negative!) about your experience, please contact the student coordinator, Leslie Lemanek, at llemanek@med.wayne.edu

Best of luck during this interview season!
