---

### The School of Medicine Strategic Plan

- Our "state-of-the science" Education Commons will be a regional hub for high tech teaching of medical students and residents
- Establishment of teaching academy for basic science educators
- Clinical campus model for clerkship training

---

---

---

---

---

---

---

---

### Preclinical curriculum

- Traditional curriculum with integration
- MS1 and MS2 courses managed by Course Directors
- ~60/40 split of lectures and active learning
- Educational technology: Streaming video, BlackBoard, PDA/Laptops

---

---

---

---

---

---

---

---

### MS1 Basic Science Coursework

---

- Anatomy, Histology, Embryology
- Neuroanatomy
- Physiology
- Biochemistry
- Clinical Nutrition
- Genetics
- Clinical Medicine 1

---

---

---

---

---

---

---

---

### MS2 Basic Science Coursework

---

- Immunology, Microbiology, Infectious Diseases
- Pharmacology
- Psychiatry
- Pathobiology
- Pathophysiology
- Clinical Medicine 2

---

---

---

---

---

---

---

---

### Faculty Development Programs

---

- Student evaluation
- Peer evaluation
- Stanford Program
- Medical Education Research Scholars Program

---

---

---

---

---

---

---

---

### MS3 Required Clinical Clerkships

#### Primary Care Block

- Internal Medicine (Eight Weeks)
- Pediatrics (Eight Weeks)
- Family Medicine (Four Weeks)
- Elective or Time Off (Four Weeks)
- Continuity Clinic Clerkship (1/2 day per week for 24 weeks concurrent with the Primary Care Clerkships)

---

---

---

---

---

---

---

---

### MS3 Required Clinical Clerkships

#### Non-Primary Care Block

- Surgery (Eight Weeks)
- OB/GYN (Eight Weeks)
- Psychiatry (Four Weeks)
- Neurology (Four Weeks)

---

---

---

---

---

---

---

---

### MS4 Clinical Clerkships

#### Three Required Clerkships

- Emergency Medicine (One Month)
- Subinternship in Internal Medicine, Pediatrics, Surgery or Family Medicine (One Month)
- Ambulatory Medicine (One Month)

Six Elective Months (Five if an elective was completed in Year 3)

---

---

---

---

---

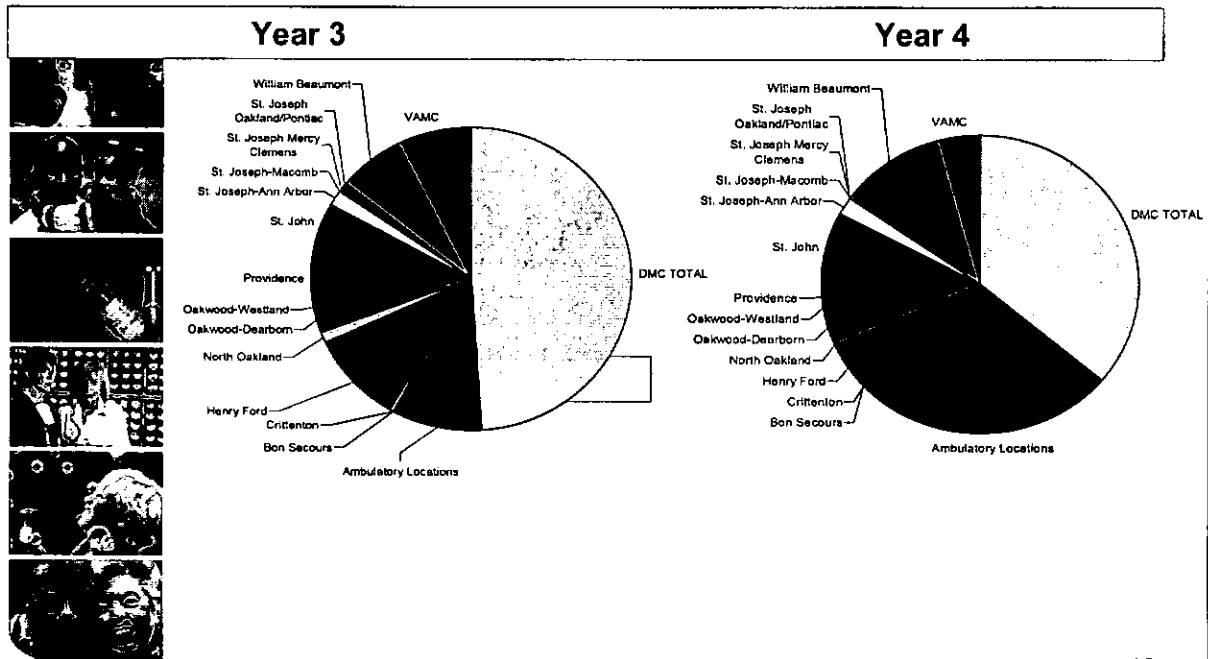

---

---

---

### Undergraduate Medical Education Yrs 3 & 4

Third and fourth year clerkships are currently dependent on DMC although recent diversification efforts are evident
