

Department of
Family Medicine and Public Health Sciences

Master of Public Health Degree

Richard Severson, Ph.D., Program Director

David Bassett, Ph.D., Graduate Student Officer

MPH Office:

Kimberly McNeil

101 E. Alexandrine, Room 205

Detroit, MI 48201

Tel: 1-313-577-1051

The Wayne State University Master of Public Health (MPH) degree is designed for individuals with a range of academic and professional backgrounds that include the medical, veterinary, health care, biological, psychosocial and behavioral sciences.

The Program is administered by the School of Medicine [Department of Family Medicine and Public Health Sciences](#) in collaboration with other divisions of Wayne State University.

Mission Statement: The MPH Program at WSU educates and engages students in public health theory, practice and research to understand and improve the health of urban and diverse populations.

All students are required to complete the MPH core courses:

- Seminar in Public Health
- Epidemiology
- Biostatistics
- Community Health Organization and Administration
- Social Basis of Health Care
- Principles of Environmental Health

And courses in one of two currently available areas of concentration:

- ***Public Health Practice (PHP):*** includes the management, promotion and protection of the health of individuals, families, groups, and communities; and the promotion of policies that assure continuity of health and social justice. Courses in applied epidemiology, health program evaluation, and research methods are required. Elective

courses in health economics, health policy and planning, health and aging, health education, and health management are available.

- **Occupational and Environmental Health (OEH):** includes the prevention and management of injury, illness and disability due to exposures to hazardous chemical, physical and biological agents, unsafe and ergonomically unsound practices, and as a result of working and living in stressful environments. The management and promotion of OEH requires the integration of sustainable, effective and innovative occupational and environmental health practices. Such practices assess and minimize these exposures and apply unique intervention strategies designed to ensure the wellbeing and sustained performance of individuals, families, organizations, and communities. Courses in applied epidemiology, occupational health and research methods are required. Elective courses in toxicology, industrial hygiene and safety, OEH management, employee and organizational health, and health psychology are available.

The wide range of elective courses provide students with flexibility in preparing for a range of careers in public health focusing on for example:

- Health Policy and Infrastructure Development
- Health Promotion and Education
- Assurance of Environmental and Occupational Health and Safety
- Improvement of Employee and Organizational Health

All students are required to obtain practical experience working with local community and/or industrial health organizations; and following completion of a course on research methods, conduct an investigative project.

The MPH requires a minimum of **42 credit hours** and can be taken in part-time or full-time status. Classes are mainly offered in the evening.

For individuals who either have completed a graduate degree or are not yet ready to commit themselves to the demands of an MPH Program, a **Graduate Certificate in Public Health Practice (GC-PHP)** is available that requires completion of a minimum of 15-16 credits hours.

Admission Requirements:

Before applications to either the MPH or the Graduate Certificate Program in Public Health Practice (GC-PHP) are presented to the Admissions Committee, all requirements for admission must be satisfied. Students must meet the requirements of the Graduate School of the University as well as those for admission into the Public Health Graduate Programs.

1. Applicants will be expected to demonstrate an overall undergraduate **grade point average (GPA) of 3.0** or higher (on a scale of 4.0) and specifically to have achieved grades of 3.0 or higher in college course work in mathematics, the social sciences and the natural sciences.
2. The demonstration of competency in **mathematics** at the college-level is essential for admission into these programs. Some of the elective courses offered in occupational and

3. The **Graduate Record Examination** (GRE) is required. Successful applicants have previously attained scores on the verbal reasoning section of the GRE at or above the 60th percentile level and on the quantitative reasoning section at or above the 55th percentile level. Individuals who have already completed a graduate level degree from an accredited institution, or physicians who have passed USMLE Part I or equivalent health professionals who have passed a USA licensure examination, can apply for a waiver of this GRE requirement (*see [supplemental application forms](#)*).
4. Applicants who graduated from non-US colleges or universities are required to demonstrate **English proficiency** either by completing a degree at an accredited US institution or in a country where English is the native language; or by passing the Michigan English Language Assessment Battery (MELAB), the Test of English as a Foreign Language (TOEFL), or equivalent test such as the International English Language Test System (IELTS). Physicians who have passed USMLE Part II Clinical Skills can apply to the Graduate School for a waiver of the TOEFL requirement.

The Application Process:

Application to these Programs requires both online application to the WSU Graduate School by logging on to: <http://www.gradadmissions.wayne.edu> and the submission of the downloadable **MPH or GC-PHP Supplemental Application** directly to the MPH Office with the required attachments (<http://www.med.wayne.edu/fam/mph>).

1. The Graduate School Admissions Office requires applicants to arrange for their **official transcripts** and any record of standardized tests (**GRE, TOEFL, etc.**) to be submitted directly. Final recommendations for admission cannot be made until all Graduate School Admissions Office requirements have been satisfied. Regular online review by an applicant to determine current admission status is essential for addressing possible paperwork deficiencies.
2. The MPH/GC-PHP Admissions Committee will not review any application until the **Supplemental Application Form** has been submitted with all its required attachments (see below).

Deadlines for Submission: MPH degree and GC-PHP applications need to be submitted by **February, 15th (January 1st, for international students)** in order to be reviewed by the Admissions Committee for admittance into the Program for the fall semester. Applicants who have yet to finish their undergraduate programs and/or have yet to take the GRE are still encouraged to file their applications by this deadline. However, a final decision cannot be made until these requirements are completed. Although completed applications received after this deadline up until **July 1st** will be subject to administrative review and applicants advised of any deficiencies in their application, subsequent review by the Admissions Committee is dependent on available space remaining in the Program. If the Program is full, applications can be deferred until the following year.

The Supplemental Application Form: submitted directly to the MPH Office and its attachments are essential to the review process. The recommendations of the Committee are based on detailed review of all material submitted including an applicant's academic record, performance in the Graduate Record Examination, personal statement, background and professional experience, and letters of reference.

1. Although official transcripts and test scores (TOEFL etc:) are required by the Graduate Admissions Office, copies of transcripts, professional certificates, and test scores (USMLE, ECFMG, TOEFL, IELTS, GRE etc:) should be submitted with the **Supplemental Application Form** to expedite the review process.
2. A **Curriculum Vitae/Résumé** and a **Personal Statement (< 500 words)** of purpose describing the applicant's reasons for applying to the Program, interest and background in the field of public health, and long-term academic and professional goals, need to be included.
3. The three required **Letters of Recommendation** can be submitted online but are best sent directly to the MPH Office by individual referees in order to expedite the review process (see below for guidelines).

Mathematics Requirement: A background in mathematics is essential for success in the Program. Applicants are therefore expected to have achieved a grade of B or above in a college-based mathematics or statistics course, preferably within the last 5 years. Applicants with a deficiency in this requirement may be asked to take a college-based mathematics course before being considered for admission into the Program. The WSU Mathematics Department has a placement examination and applicants passing at the first level would be recommended to take MAT 1000 or MAT 1050 (<http://www.clas.wayne.edu/math>). However, an applicant passing at the second level of this placement examination would have met the mathematics requirements for admission into the Program. For those physicians who might have taken biostatistics as part of a larger course such as community medicine, the Admissions Committee is willing to consider a waiver of this mathematics requirement if official documentation of specific mathematics competencies can be provided. Such documentation is best provided as a letter forwarded directly to the MPH office by the applicant's medical school listing the specific biostatistics competencies and grades attained.

Letters of Recommendation: When requesting letters of recommendation from former lecturers, supervisors and or professional colleagues, applicants need to request that their referees focus on the suitability of the applicant for admission into a public health graduate degree or certificate program. The letters need to be current and should include a description of how long and in what capacity the referee knows the applicant. The committee is seeking from referees an appraisal of an applicant's experience in public health and or related fields, listing relevant technical skills. Assessment of abilities to communicate in both verbal and written formats is also important. Any additional information on an applicant's interpersonal skills, motivation, organizational abilities, and aptitude for research are also welcomed. Overall the committee would like to hear from referees as to an applicant's potential to be successful in completing a graduate degree or certificate in public health and how they might effectively use the acquired knowledge and experience in developing a future career in the field of Public Health.

MPH CURRICULUM:

Currently two main areas of subspecialty concentration are offered for the MPH degree, namely Public Health Practice and Occupational and Environmental Health, each with a minimum total of **42 credit hours**. The following represent the MPH core, the required (major) courses for these two areas of concentration and the current range of available elective courses:

MPH Core Courses taken by all MPH students (17 credits)

<i>FPH 7010</i>	<i>Seminar in Public Health (1 credit)</i>
<i>FPH 7240</i>	<i>Epidemiology (3 credits)</i>
<i>FPH 7015</i>	<i>Biostatistics I (4 credits)</i>
<i>FPH 7100</i>	<i>Health Care Organization and Administration (3 credits)</i>
<i>FPH 7320</i>	<i>Social Basis of Health Care (3 credits)</i>
<i>OEH 7420</i>	<i>Principles of Environmental Health (3 credits)</i>

Public Health Practice (MPH-PHP) Major Courses (10 credits):

<i>FPH 7210</i>	<i>Research Methods for Health Professionals (4 credits)*</i>
<i>FPH 7230</i>	<i>Health Program Evaluation (3 credits)</i>
<i>FPH 7250</i>	<i>Applied Epidemiology (3 credits)*</i>

* Prerequisites: FPH 7015 and FPH 7240

Occupational and Environmental Health (MPH-OEH) Major Courses (10 credit hours)

<i>FPH 7210</i>	<i>Research Methods for Health Professionals (4 credits)*</i>
<i>FPH 7250</i>	<i>Applied Epidemiology (3 credits)</i>
<i>FPH 7860</i>	<i>Principles of Occupational Health (3 credits)</i>

* Prerequisites: FPH 7015 and FPH 7240

Culminating Experiences taken by all MPH students (6 credit hours):

<i>FPH 7440</i>	<i>Practicum in Public Health (3 credits)</i>
<i>FPH 8990</i>	<i>MPH Research Project (3 credits)</i>

Examples of Elective Course Choices for MPH-PHP (minimum of 9 credit hours): that allows students to focus in a range of different areas of public health practice. For example those students interested in focusing on:

- a) ***Health Policy and Organizational Leadership*** could consider including some of the following available elective courses:

<i>FPH 7200</i>	<i>Health Planning (3 credits)</i>
<i>FPH 7300</i>	<i>Health Care Policy (3 credits)</i>
<i>FPH 7415</i>	<i>Principles of Health Care Management (3 credits)</i>

And courses offered by the College of Education, the School of Business Administration, the Law School, and the Department of Geography and Urban Planning that are also available.

- b) ***Health Promotion and Education*** could consider including some of the following available elective courses:

<i>FPH 7760</i>	<i>Community Health Education (3 credits)</i>
<i>FPH 7510</i>	<i>Community Health: Detroit Initiatives (3 credits)</i>
<i>FPH 7200</i>	<i>Health Planning (3 credits)</i>

FPH 7370 Health, Disease, and Aging (3 credits)
And courses offered by the College of Education, the College of Nursing, the School of Social Work and the Department of Anthropology that are also available.

Examples of Elective Course Choices MPH-OEH (minimum of 9 credit hours): representing course clusters that demonstrate the potential to provide students with career opportunities associated with both traditional and emerging occupational and environmental health issues. Individual MPH programs can be further expanded by concomitant enrollment in Graduate Certificates in *Occupational Safety* or *Environmental Health & Hazardous Materials Handling* offered by the Occupational and Environmental Health Sciences Programs in the Eugene Applebaum College of Pharmacy and Health Sciences.

- a) ***Physicians and Other Health Care Professionals*** with a background in both the biological and physical sciences could consider including some of the following courses in their MPH plan of work.

OEH 7010 Introduction to Industrial Hygiene and Toxicology (3 credits)
OEH 7280 Occupational Safety (2 credits)
OEH 7300 Industrial Toxicology (3 credits) (Prereq. OEH 7010)
OEH 7720 Industrial Hygiene Controls (2 credits) (Coreq. OEH 7010)
OEH 7110 Occupational Ergonomics (2 credits)
OEH 7840 Occupational Health Management (2 credits) (Prereq. OEH 7010)

- b) ***Individuals Interested in the Public Health Aspects of Toxicology*** with a background in both the biological and physical sciences should consider including the following courses in their MPH plan of work.

OEH 7010 Introduction to Industrial Hygiene and Toxicology (3 credits)
OEH 7820 Regulatory Affairs in Occupational & Environmental Health (2 credits)
OEH 7300 Industrial Toxicology (3 credits) (Prereq. OEH 7010)
OEH 7310 Critical Issues in Toxicology (2 credits) (Prereq. OEH 7300)
OEH 7330 Selected Topics in Toxicology - (2 credits) (Prereq. OEH 7300)

- c) ***Individuals Interested in Employee and Organizational Health*** with a background in the psychosocial and behavioural sciences could consider including the following courses in their MPH plan of work.

FPH 7870 Occupational Health Psychology (3 credits)
FPH 7880 Organizational Determinants of Employee Health & Productivity (3 cr.)
OEH 6250 Introduction to Occupational Health & Safety Training (2 credits)
OEH 7290 Principles of System & Process Safety Management (3 credits)
OEH 7280 Occupational Safety (2 credits)

List of Available FPH and OEH Elective Courses

FPH 7020 Biostatistics II (3 credits)
FPH 7200 Health Planning (3 credits)
FPH 7300 Health Care Policy (3 credits)
FPH 7370 Health, Disease, and Aging (3 credits)
FPH 7415 Principles of Health Care Management (3 credits)
FPH 7760 Community Health Education (3 credits)
FPH 7510 Community Health: Detroit Initiatives (3 credits)
FPH 8090 Interdisciplinary Perspectives on Addictions (3 credits)

FPH 7990	<i>Directed Study in Public Health Practice (1-6 credits)</i>
FPH 7860	<i>Principles of Occupational Health (3 credits)</i>
OEH 6250	<i>Introduction to Occupational Health & Safety Training (2 credits).</i>
OEH 7080	<i>Industrial Hygiene Practice (2 credits) (Prereq. OEH 7010)</i>
OEH 7110	<i>Occupational Ergonomics (2 credits)</i>
OEH 7120	<i>Principles of Industrial Noise Ctrl. (3 credits) (Coreq. OEH 7010)</i>
OEH 7270	<i>Radiation Safety: Principles and Practice (2 credits)</i>
OEH 7280	<i>Occupational Safety (2 credits)</i>
OEH 7290	<i>Principles of System & Process Safety Management (3 credits)</i>
OEH 7310	<i>Critical Issues in Toxicology (2 credits) (Prereq. OEH 7300)</i>
OEH 7330	<i>Selected Topics in Toxicology - (2 credits) (Prereq. OEH 7300)</i>
OEH 7510	<i>Air Sampling and Analysis (3 credits) (Coreq. OEH 7010)</i>
OEH 7600	<i>Principles of Industrial Ventilation (3 credits) (Coreq. OEH 7010)</i>
OEH 7720	<i>Industrial Hygiene Controls (2 credits) (Coreq. OEH 7010)</i>
OEH 7820	<i>Regulatory Affairs in OEH (2 credits)</i>
OEH 7840	<i>Occupational Health Management (2 credits) (Prereq. OEH 7010)</i>
OEH 7870	<i>Periodical Literature in Occupational Health (1 credit)</i>
OEH 7990	<i>Directed Study in Occupational & Environmental Hlth.(1-4 credits)</i>

Note: Other graduate courses (6000 level and above) of relevance to a student's specific career needs can also be considered. These courses are offered in Business Administration, Education, Nursing, Political Science, Psychology, and Sociology, but require the MPH Program Director and advisor approval for inclusion in a MPH Plan of Work. These can include for example:

ANT 6680	<i>Studies in Cultural Anthropology (2-4)</i>
ANT 6700	<i>Topics in Medical Anthropology (3)</i>
ANT 7260	<i>Urban Poverty and Racial Segregation (3)</i>
ANT 7680	<i>Medical Anthropology I (3)</i>
ANT 7690	<i>Medical Anthropology II (3)</i>
BA 7000	<i>Accounting (3)</i>
BA 7020	<i>Finance for Health Care (3)</i>
BA 7050	<i>Human Resource Management (3)</i>
BA 7050	<i>Marketing (3)</i>
BA 7070	<i>Legal Environment of Health Care (3)</i>
EER 7650	<i>Computer Use in Research (3)</i>
EER 7900	<i>Fundamentals of Qualitative Research (3)</i>
EER 8700	<i>Advanced Qualitative Evaluation: Theory and Practice (3)</i>
ECON 6550	<i>Advanced Economics of Health Care (4)</i>
HE 6420	<i>Introduction to Health Program Design (3)</i>
HE 6530	<i>Principles & Practice of Health Education & Health Promotion (3)</i>
IT 8150	<i>Needs Assessment and Program Validity (3)</i>
LEX 7410	<i>International Organizations and Public Health (3)</i>
NUR 7745	<i>Immigration and Health (3) (ANT 7745)</i>
NUR 8210	<i>Health Care Determinants: Focus on Urban Environments (3)</i>
NUR 8610	<i>Applied Statistical Analysis Hlth Cr Res. I (3)</i>
NUR 8612	<i>Applied Statistical Analysis Hlth Cr. Res. II (3)</i>
NFS 6160	<i>Food Law and Regulations (3)</i>
NFS 7000	<i>Nutrition, Metabolomics and Bioinformatics(3)</i>
PS 7320	<i>Organization Theory and Behavior (3)</i>
PS 7430	<i>Health Care Policy in the United States (3)</i>

<i>PSY 8300</i>	<i>Health Psychology I (3)</i>
<i>PSY 8310</i>	<i>Health Psychology II (3)</i>
<i>PSY 8350</i>	<i>Community Psychology (3)</i>
<i>SOC 6750</i>	<i>Sociology of Urban Health (3)</i>
<i>SOC 7010</i>	<i>Special Topics in Medical Sociology (3)</i>
<i>SOC 7100</i>	<i>Women's Health (4)</i>
<i>SW 6535</i>	<i>Juvenile Delinquency: Social Functioning (2-4)</i>
<i>SW 7010</i>	<i>Intervention Strategies in Infant Mental Health (3)</i>

GRADUATE CERTIFICATE OF PUBLIC HEALTH PRACTICE CURRICULUM:

Candidates must complete a minimum of 15 to 16 credits of course work. Electives from the above list may be taken within or outside the Department. A grade point average of 3.00 in certificate coursework must be maintained. All work must be completed within three years.

The program requires completion of the following core courses:

<i>FPH 7010</i>	<i>Seminar in Public Health (1 credit)</i>
<i>FPH 7240</i>	<i>Epidemiology I (3 credits)</i>
<i>FPH 7015</i>	<i>Biostatistics I (4 credits) (previously numbered FPH 6010)</i>
<i>OEH 7420</i>	<i>Principles of Environmental Health (3 credits)</i>

December 2009

The MPH Faculty - Department of Family Medicine & Public Health Sciences

Joel Ager, PhD	Division of Population Health Sciences
Bengt Arnetz, MD, PhD, MPH	Director, Div. of Occupational & Environmental Health
Judith Arnetz, PhD	Division of Occupational & Environmental Health
David Bassett, PhD	Graduate Student Officer of the MPH Program & Division of Occupational & Environmental Health
Juliann Binienda, PhD	Division of Medical Education
Cathryn Bock, PhD	Adjunct Faculty - Karmanos Cancer Institute
Patrick Bridge, PhD	Division of Medical Education
Kimberly Campbell-Voytal, MSN, PhD	Division of Population Health Sciences
Frank Castronova, PhD	Adjunct Faculty - Blue Cross and Blue Shield
Michele Cote, PhD	Adjunct Faculty - Karmanos Cancer Institute
Richard Gallagher, PhD	Director, Division Medical Education
Julie Gleason-Comstock, PhD, CHES	Division of Population Health Sciences
Hector Gonzalez, PhD	Division of Population Health Sciences
John Graff, PhD	Division of Population Health Sciences
James Janisse, PhD	Division of Population Health Sciences
Todd Lucas, PhD	Division of Occupational & Environmental Health
Dawn Misra, PhD	Director, Division of Population Health Sciences
Victoria Neale, PhD, MPH	Division of Population Health Sciences
John Porcerelli, PhD	Family Medicine Residency Program
Linda Roth, PhD	Division of Medical Education
Maryjean Schenk, MD, MS, MPH	Department Chair
Kendra Schwartz, MD, MSPH	Associate Chair Research
Richard Severson, PhD	Assoc Chair Program Development & Director of the MPH Program
Rosalie Young, PhD	Division of Population Health Sciences
Roger L. Wabeke, MS, PE, CIH	Division of Occupational & Environmental Health

The Associated, Adjunct & Part-time Faculty (Course Directors)

Edward Kerfoot, PhD	Director, OEHS Programs HCS/EACPHS
Ernest Hammel, PhD	Part-time Faculty, DFMPHS/SOM
Michael Maddens, MD	Part-time Faculty, DFMPHS/SOM
Sarunas Mingela, MS, PhD, CIH	OEHS Programs. HCS/EACPHS
James Moseley, EdD, LPC, CHES, CPT	WSU College of Education
Dennis O'Brien, PhD, CIH, PE	OEHS Programs. HCS/EACPHS
Bradley Joseph, PhD	Part-Time Faculty, HCS/EACPHS
Eugene Schoener, PhD	WSU School of Medicine,
Steven Paul, MPH, CIH	Part-Time Faculty, HCS/EACPHS
Peter Warner, PhD	OEHS Programs. HCS/EACPHS
William Watt, PhD, CIH	OEHS Programs. HCS/EACPHS
Wonsuk Yoo, PhD	WSU School of Medicine

*DFMPHS/SOM Dept. of Family Medicine & Public Health Sciences – School of Medicine
HCS/EACPHS Department of Health Care Sciences – OEHS Programs, Eugene Applebaum
College of Pharmacy & Health Sciences*

**SUPPLEMENTAL APPLICATION FOR ADMISSION:
MASTERS OF PUBLIC HEALTH (MPH)
Wayne State University School of Medicine (WSUSOM)
Department of Family Medicine & Public Health Sciences**

Return application materials to:
**MPH Degree Office, Room 205
101 E. Alexandrine
Wayne State University
Detroit, MI 48201**

Application for admission for semester beginning: Fall 20 ; Part-Time or Full-Time
(Please type or write legibly)

PERSONAL INFORMATION

Full Name

_____ Gender: _____ (M or F)
Last First Middle Initial(s)

Different Surname(s) (if any) _____

Current Mailing Address

_____ Street City State/Country Zip Code

Telephone Number _____ Valid until _____ Email address _____
Month/Day/Year

Permanent Address (if different from Current Address)

_____ Street City State/Country Zip Code

Telephone Number: _____ Which address would you prefer for correspondence? Permanent Current

Country of Citizenship: _____ Place of Birth _____
(Give State also, if US Citizen) (Required of all international applicants)

If you are not a citizen of the United States, are you a permanent resident? Yes No

EDUCATION

List all undergraduate and graduate institutions attended, beginning with the most recent.

INSTITUTION	MAJOR	GPA	DEGREE AWARDED	DATES OF ATTENDANCE
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____

EXAMINATIONS TAKEN OR SCHEDULED

All students must arrange for official test scores to be forwarded directly to the Graduate School Admissions Office. Applications will not be complete until these are received.

	Date Taken/Scheduled	Score, if available
<input type="checkbox"/> GRE* Verbal	_____	_____
Quantitative	_____	_____
<input type="checkbox"/> TOEFL* (international students only) or	_____	_____
<input type="checkbox"/> IELTS	_____	_____
<input type="checkbox"/> MELAB	_____	_____

* Please provide the MPH office with copies of test scores as soon as they are available.

Request for GRE Waiver: Yes (A request for GRE waiver for physicians, dentists, graduate degrees, etc. can be made by submitting a written request with explanation and copies of licensure examinations as applicable).

OFFICIAL COLLEGE TRANSCRIPTS

Arrangements must be made for official transcripts to be submitted directly to the Graduate Admissions Office. Although applications will not be considered complete until all material has been received from the Graduate Admissions Office, inclusion of copies of transcripts and other documentation to the MPH office with this Supplemental Application form will expedite the review process. All applicants must have taken at least one college level course in mathematics (including statistics), social sciences, and natural sciences with at least "B" grades. Please note below your relevant course work.

Mathematics/Statistics: Course _____ Year _____ Grade _____ (preferably within last 5 yrs)
 Social Sciences: Course _____ Year _____ Grade _____
 Natural Sciences: Course _____ Year _____ Grade _____

RÉSUMÉ

Please attach a résumé or CV. This should include information about the colleges/universities that you have attended academic honors, publications, work experience, and any other professional or community activities that you consider to be relevant.

PERSONAL INTEREST STATEMENT

A Personal Interest Statement is also required and can be submitted online and/or sent directly to the MPH office. This should be a typed, double-spaced essay of no more than 500 words in which you describe why you want a MPH degree.

REFERENCES

Please provide information requested for those individuals who have agreed to submit professional letters of recommendation for you. These letters can be submitted online but are best sent directly to the MPH office by your references.

ACADEMIC PROGRAM

I intend to concentrate in the following academic area (once admitted, students may change their concentration with permission from their advisor): Public Health Practice Occupational & Environmental Health

Application Materials Due: International Applicants: January 1
 U.S. Resident Applicants: February 15

Checklist:

- I have applied to the Graduate School Online
- I have arranged for official transcripts and the following test scores to be submitted to the Graduate Admissions Office
 - TOEFL or IELTS or MELAB or waiver request based on USMLE II CS.
 - Graduate Record Examination (GRE)
- I have arranged for three (3) Letters of Recommendation to be submitted
 - Online to the Graduate Admissions Office or
 - Directly by mail to the MPH office (**preferred**)
- FM & PHS Supplemental MPH Application with the following attachments:
 - Personal Interest Statement
 - Professional Résumé or CV
 - Copy of GRE Results or Waiver Request if applicable
 - Copies of undergraduate/graduate transcripts and test scores (TOEFL etc)
 - Copies of Professional Certificates, Licenses and/or Examination Results (e.g. USMLE I)

I certify that the information provided on my application form and related material is true, complete, and correct to the best of my knowledge. I understand that dishonesty, misrepresentation, or fraud in the admissions process may result in the rejection of an application, revocation of an offer of admission, or expulsion from the degree program.
