

OEM News Fall 2004

December 2004

The work effort of faculty members of the OEM division, preceptors and program graduates to develop Guiding Plans was finalized in late December 2004. Guiding Plans are a set of questions and possible assignments to assist our faculty in teaching the 165 ACOEM Learning Competencies to our residents. The process to develop a complete set of Guiding Plans began with a seminar held on July 24, 2004 . The final version of the Guiding Plans will be sent to all preceptors before the July 2005 residency year begins. We would like to thank all the faculty, preceptors and graduates who participated in this process. Thanks to all.

November 2004

The division celebrated the completion of another successful OEM Rotation Course. The OEM Rotation Course is a month-long rotation in Occupational and Environmental Medicine offered on a quarterly basis to residents and medical students in the Detroit metropolitan area. During the November 2004 course, eleven residents from five Family Practice Residency Programs (Bon Secours, Providence, St. John, North Oakland & Wayne State University) and two students from Wayne State University /Medical School.

November 2004

Dr. Hikmet Jamil was the first author of the article “ *The Aftermath of the Gulf War: Mental Health Issues Among Iraqi Gulf War Veteran Refugees in the United States* ”. J. Mental health Counseling 2004, Vol.26, No. 4, 295-308

October 2004

The OEM division would like to thank Dr. Peter Metropoulos for arranging with Daimler-Chrysler Corporation to allow the DAIMLER-CHRYSLER JEFFERSON NORTH ASSEMBLY PLANT (JNAP) in Detroit to become a training site for OEM Rotation Course. Dr Peter Metropoulos will be a preceptor to the trainees during the quarterly OEM Rotation Course.
