

I am inquiring to the availability of a 2nd or 3rd year medical student to work as a summer intern for Dr. Marc G. Webb, Vascular Access Surgeon. I have attached his CV for your review.

The position is paid and will require the student to shadow Dr. Webb as he goes through his weekly clinical and surgical rotations. The student would also be involved in day to day activities such as patient dictations and operative notes. The student should be on a surgical path in their studies and an interest in Vascular Access surgery would be preferred.

Dr. Webb does own and operate Michigan Vascular Access and we do have a web site, www.MichiganVascularAccess.com where additional information can be obtained.

If you would like to speak with Dr. Webb, he is easiest to catch Mondays' and Tuesday's between 6:30 - 7:30am. Those are clinic days and you can catch him before patients arrive.

I look forward to hearing from you and thank you so much for your time.
