

# 53<sup>rd</sup> Annual National Student Research Forum

Galveston, Texas  
April 26-27, 2012

**Attention: Medical and Graduate Students In Biomedical Research**

## Abstract Deadline: February 12th, 2012

*The primary purpose of the National Student Research Forum is to provide a national scientific assembly, planned and managed by students for the presentation of research by medical students, graduate students, interns, and residents in the biomedical sciences. The Forum provides an opportunity for young biomedical scientists to receive critical analysis and recognition of their research efforts from established scientists.*
