## WAYNE STATE UNIVERSITY PRESIDENT M. ROY WILSON, M.D.

*Dear Graduates:*

Congratulations, doctors! Graduating from the Wayne State University School of Medicine is an exceptional achievement, and you—the Class of 2022—have done so under extraordinary circumstances. I know you’ve heard this many times, but please hear it also from me: I am so proud of you.

As you reach this milestone, I’m confident your time at the Wayne State School of Medicine has prepared you to reach many more. Because of your time here, you now have an opportunity to have a meaningful, fulfilling impact on people’s lives and on society at large that few people can even dream of. You’ve shown, through your flexibility and grace during unprecedented challenges, that you are well equipped to thrive as physicians in an unpredictable world. You’ll certainly benefit from your many hours of study and clinical practice, and from the opportunities you’ve had to engage with the world outside the classroom from our campus in Detroit. This gives you a distinct advantage.

Yet, the richest reward of your time here in medical school may be the wisdom and humanistic outlook you’ve gained, which have made you a compassionate and thoughtful physician, committed to making a difference in your community.

The Wayne State University School of Medicine has asked a lot from you, not the least of which was to be the best healer you could be. Today, we ask for one more thing: Stay engaged with the university, and help a new generation access the transformative opportunities you have had here.

We trust that your experience here has kindled a lifelong passion for learning and healing. So instead of goodbye, I’ll say, “Until we meet again.”

Best wishes to you and to the entire Class of 2022.

M. Roy Wilson, M.D.  
President

## WAYNE STATE UNIVERSITY SCHOOL OF MEDICINE

*To the Class of 2022:*

I would like to be among the first to say upon this auspicious occasion: Congratulations, doctors.

You are the next generation of a living legacy founded 154 years ago. You are justifiably proud to become the continuation of that legacy. The faculty you have entrusted with your education and training and I have every expectation that you will go on to do great things in medicine, and that you will further enhance the tremendous reputation of the Wayne State University School of Medicine.

You have not only been tested by the rigors of medical education, you have been forged as a physician by the COVID-19 pandemic. In the years to come, you will find that this test of your character and your skills has made you better physicians. Your many efforts to confront the virus while providing care for the community have been inspirational and are emblematic of the Warrior M.D. tradition.

Our School of Medicine is built upon a solid foundation of the finest medical education and dedicated service to the community. You now become the next layer in that foundation, firmly embedded into our values of extending the highest quality health care to our diverse communities within the state of Michigan and worldwide. Those who will follow in your footsteps will look to you for inspiration. I am certain they will have much to live up to as you develop your own brilliant futures.

As you launch your residencies and your careers, I ask that you stay safe, maintain your sense of patient-centric caring, and remain in contact with your School of Medicine so that I, the faculty and your colleagues may celebrate your many future successes.

Wael Sakr, M.D.  
Dean, Wayne State University School of Medicine

## COMMENCEMENT SPEAKER

*Rana Awdish, M.S., M.D. '02, FACP, FCCP*

Dr. Rana Awdish is the author of “In Shock: My Journey from Death to Recovery and the Redemptive Power of Hope,” a critically acclaimed, bestselling memoir based on her own critical illness. She is a sought-after public speaker, delivering inspirational keynote addresses to groups ranging from professional medical societies, to members of Congress, to organizations combating homelessness.

A pulmonary and critical care physician, she serves as the director of the Pulmonary Hypertension Program at Henry Ford Hospital. She also serves as medical director of Care Experience for the System, where she has integrated compassionate communication strategies and Narrative Medicine practice into the curriculum.

Dr. Awdish received the Schwartz Center’s National Compassionate Caregiver of the Year Award in 2017. She was named Physician of the Year by Press Ganey in 2017 for her work on improving communication and received the Critical Care Teaching Award in 2016. She has been inducted into the Alpha Omega Alpha medical honor society and the Gold Humanism Honor Society.

Her narrative non-fiction essays have been published in The Examined Life Journal, Intima, CHEST and The New England Journal of Medicine. She has written editorials for The Harvard Business Review, Annals of Internal Medicine, The Washington Post and The Detroit Free Press. Her essay, “The Shape of the Shore,” was awarded a Sydney by The New York Times and was nominated for a Pushcart Prize.

Before joining Henry Ford, Dr. Awdish completed her training at Mount Sinai Beth Israel in Manhattan. She attended Wayne State University Medical School and completed her undergraduate degree at the University of Michigan in Ann Arbor. She is board certified in Internal Medicine, Pulmonary and Critical Care Medicine.

## DEAR CLASS OF 2022

*Congratulations on graduating medical school!*

Wow. What a crazy last few years it has been. It feels like just yesterday we were trying to figure out which staircase led to which level of Scott Hall, and now here we are - physicians about to scatter around the country to continue our training. We did it!

We have been through so much to get here today. It sometimes felt that at every turn, there was a new obstacle and that nothing was going to go smoothly - remember when we almost got a last-minute summer break between first and second year? Or perhaps we remember the beginnings of the COVID-19 pandemic, when some of us were stuck in eternal STEP1 dedicated? But you, the Class of 2022, persisted. You voiced your

concerns and advocated for yourselves and have made changes that will benefit the classes below us for years to come. You showed everyone how strong we are and that is what will define us.

***Continue to be  
an advocate.  
Not only for  
yourselves,  
but for your  
patients.***

As we go our separate ways, it is my hope that you continue to be an advocate. Not only for yourselves, but for your patients. Being a physician is a privilege and an opportunity that we are fortunate to have received, and I hope that we all use our positions to fight for changes that affect the health of the communities that we serve.

I am truly honored to be a part of the Class of 2022 - a class defined by strength, persistence, Grit, and The Subtle Art of Not Giving ... well, you get it. To each and every one of you, I thank you from the bottom of my heart for shaping my medical school experience. I am excited to see where everyone's journey takes them and hope that our paths cross again someday. I believe Stephen Schwartz said it best: "Because I knew you, I have been changed for good."

Congratulations to the Class of 2022!

Mugdha Joshi  
Class of 2022 President

## INVESTITURE OF DOCTORAL HOODS

One of the most colorful features of an academic regalia procession is the appearance of the graduates, faculty, cabinet and Board of Governors in full academic regalia. These caps, gowns and hoods have long histories and their patterns and colors have special significance.

The gown recalls the time when all students in centers of higher learning were members of the clergy and therefore wore garments the church considered proper.

The Oxford or “mortarboard” cap worn today is thought to be a combination of the close-fitting cap worn indoors by scholars of the Middle Ages and the soft square biretta worn outdoors. The tuft on the early cap has been replaced by a colored tassel that signifies the college granting the degree.

In modern universities, the distinctive mark of a degree is a hood, which in its earliest form was simply an article of clothing. Since the churches and lecture halls of European universities were cold, drafty places, scholars wore hoods as head coverings, attached to a cape or worn separately.

American universities, unlike those of England and Europe, have adopted a standard code of academic regalia. The design of the gown, the color of the tassel and the pattern, length and colors of the hood all have special meaning.

Each graduate wears a gown appropriate to the degree granted. The doctor’s gown is faced with velvet and has bell-shaped sleeves. Each sleeve carries three bars of velvet, or chevrons.

The most colorful part of the costume is the hood. The color of the velvet trim indicates the department in which the degree was granted; the width corresponds to the level of the degree. At this ceremony, candidates for medical doctoral degrees wear hoods with green velvet running along a black background, representing the academic color of medicine and the yellow and green silk representing Wayne State University.

## OATH OF COMMITMENT CLASS OF 2022

I do solemnly swear by all that I hold most sacred that according to my ability and judgment I will in every particular keep this, my oath and covenant:

*I pledge to dedicate myself to the service of humanity and to honor the noble traditions of the medical profession. To hold those who have taught me this art as equal to my parents and to live my life in partnership with them. To give to my teachers the respect and gratitude which is their due; to regard my colleagues equally with my brethren; and to teach this art by precept, by lecture, and by every other mode of instruction, to those who practice the healing arts.*

*As a physician, I will maintain the ultimate dignity of life while guiding its arrival, protecting its course, and easing its natural passage from this world; I will offer to those who seek my aid not only my knowledge and skills, but my warmth and compassion as well; whatever in the lives of those I shall see or hear, either in my practice or outside of my practice, which should not be made public, this will I hold in silence, believing that such things should not be spoken.*

*I will conduct myself with honesty and virtue; with conscience and dignity will I live my life and practice my art. In all circumstances, I will consider every individual as equal without regard to race, creed, or gender, refusing no one my help. I will abstain from every act of injustice and corruption. Above all else, I will do no harm (Primum Non Nocere).*

*I freely take this oath and will maintain the noble traditions of my profession, always tempering my science with the warmth and humility of the true physician.*

# *Congratulations, graduates!*

It is an honor to celebrate your commencement, and we are proud to welcome you to the School of Medicine alumni family. After countless hours of studying, shadowing and serving our community, you have officially earned the title of Warrior M.D.

The Wayne State University physicians who have gone before you, and whose ranks you now join, have had the privilege of helping you pursue your passions. You have embraced the necessary commitments to both the art and science of medicine, and to creating change through your work. We look forward to learning of your many accomplishments in the years ahead.

As graduates of the School of Medicine, it is now your turn to be there for the next generation of students – providing counsel, support and guidance as they progress through their medical education.

On behalf of our more than 24,000 alumni across the country and around the world, we wish you much success, we welcome you as our colleagues, and we celebrate the start of our enduring relationship as alumni and friends.

### HYMN TO WAYNE

*To thee, our Alma Mater,  
Homage we bring.  
Brave hearts raise grateful voices  
Thy praise to sing.  
Young art thou, young and strong;  
Renowned shalt thou live, and long;  
Honors to thee will throng-  
And Fame to thee cling.  
We laud thee, Alma Mater,  
Guardian of Right.  
Thou art our guide, our mentor-  
Thy name shines bright.  
Keep Learning's light aflame,  
And hold Truth a sacred name,  
Honor, thy steadfast aim.  
All hail to thy might.*
