

UME Technology Committee

June 10th, 2021

MS Teams

12:00 pm - 1:00 pm

AGENDA

1. SOM Learning Space Computers updates - July 6th (Dozier)
 - a. Papercut pruning (new class added when registration is complete)
 - b. Scheduled Windows update
 - c. Mice and keyboards added back
2. ExamSoft (Examplify) Updates (Dozier)
 - a. [Examplify: Minimum System Requirements](#)
 - b. [Instructions to update device to minimum system requirements](#)

We have made updates to our [Minimum System Requirements](#) for Examplify. These updates include:

- Our practice is to support the current and previous two versions of an operating system; therefore, we no longer support the 1909 version of Windows 10. The supported versions of Windows 10 certified for use are 2004, 20H2, and 21H1.
- We have also updated the minimum screen resolution for both Windows and Mac devices to be at least 1280x768. Scaling should be set to 100%.
- Examplify does not support touchscreen input devices on Mac or Windows laptops.

Exam-takers can view [these instructions](#) on how to update their device to meet these guidelines.

3. Surgical Skills and Kado - AV Upgrades (Crimmins)
 - a. Programming delayed
 - b. Large interactive/touch sensitive monitor in Surgical Skills (i.e., Gross Labs)
4. Conference Room 1328 to be converted to a student lounge (Crimmins)

Discussion
